

What thoughts has this discussion triggered about the future of Outreach:
Be collaborative to be competitive... both traditional *and* transformational.
Expansion of FCS especially in Urban Areas
More collaborations among universities
LEVERAGE PARTNERSHIPS WITH TEACHING AND RESEARCH
All colleges at LG schools should strive to embrace Outreach purposefully
Cross-training is key for our agents to remain relevant, and we need to hold on to our unique connection to our local state communities.
Collaboration, fulfillment of mission,
Seek additional opportunities to be relevant, collaborative, and work across counties and states
Extension must educate it's own university about what it can do
Increase two-way communication
Retain talent, publicize success, train new agents
Creating better metrics is important
Collaboration with academic and research components of college on a systems level.
