

CAL POLY

College of Agriculture, Food
& Environmental Sciences

ASSOCIATE DEAN

TEACHING AND RESEARCH OPERATIONS AND INFRASTRUCTURE

THE POSITION

The Associate Dean of Teaching and Research Operations and Infrastructure is a critical leadership role within the college’s management team, reporting directly to and advising the college Dean. As an operational leader, key areas of responsibilities include:

- Strategic planning for college infrastructure and 18 production operations, which generate more than \$5M in annual revenue
- Overseeing production operations to support teaching, research and commercial activities
- Supporting department heads in fulfilling our academic mission
- Growing and enhancing programs to support student excellence
